22 January 1982

MEMORANDUM FOR: Director of Central Intelligence

SUBJECT : SA/IA

SUBJECT : Testimony on Central America and Middle East [] 25X1
 [] before HAC Defense Subcommittee, 25X1
 26 January 1982

1. With the help of [] and Dewey Clarridge, I have pulled together the attached material for your appearance next Tuesday before the HAC Defense Subcommittee. I refer you to Tab C, which contains the memo from Gary Miller explaining what the Committee is after.

2. On Central America, Dewey's people updated your opening statement, which you used in December with the SSCI and HPSCI. Dewey also has provided answers for the Subcommittee's questions on the Central America Finding. In addition, you have a copy of the Finding and other backup material.

3. On the Middle East, [] has supplied the overview statement 25X1 you requested the other day. He also has provided answers to the Subcommittee's questions on the various programs in the Middle East, and I have included the various relevant Findings.

4. I have scheduled a meeting on Monday at 10:00 in your office with Dewey, Chuck, Maury Lipton, and [] to review your material and to work 25X1 the modalities. Per your instructions, we have invited representatives of State Department and Defense to join you during this presentation. Secretary Enders is planning on attending, but Ambassador Veliotis will have to send a deputy because of a conflict. General Stilwell is planning to attend and will probably be accompanied by one or more of his regional experts. Because of the fact that you are testifying on two different areas of the world, we probably will have to ask that those representatives not associated with the region of the world being discussed remain outside the hearing room until their turn.

5. Your statement on Central America, at least the first couple pages, is essentially what you used in December. The latter half of it contains the updates from Dewey's people and should, I think, in conjunction with Secretary Enders' presentation, provide the necessary information for the Committee. Dewey, of course will be along for backup.

SECRET

6. Chuck's statement on the Middle East is new and, therefore, you may wish to revise it to suit your own preferences. Chuck also will be along to provide backup during the hearing. Maury Lipton will also attend to provide budget backup.
